CORPORATE CAPABILITIES

Leading Solutions provides its services in four core areas – training and curriculum development, professional services, information technology services, and healthcare services.

- **Training & Curriculum Development:** Support the design, development and implementation of solutions to satisfy traditional training requirements through enterprise-wide integration of information technology that enhances training delivery, access and performance. This includes Mission Command Information System (MCIS) and Simulation Training initiatives, encompassing instructor-led, distributed learning, and blended training to ensure effective and scalable curriculum development and delivery.
- **Professional Services:** Provide experienced personnel to fulfill customer professional, technical and administrative requirements in multiple skills and disciplines. Our workforce goes through a rigorous selection process to ensure we provide exceptional talent to our customers.
- **IT Services & Solutions:** Provide management of IT functions and systems as well as solutions that are practical and which optimize resources so information is available when and where it is needed. Solutions are stable, scalable and mobile.
- **Healthcare Services:** Provide healthcare professionals of multiple specialties, supporting human performance programs and the direct healthcare needs within the Department of Defense and other Federal Government healthcare systems.

CORPORATE DISTINCTION

Leading Solutions' differentiators provide value to its Government and commercial customers.

- **Service Excellence:** Our focus is providing a professional workforce that supports customers needs and addresses their challenges, including highly specialized positions using exceptionally responsive internal recruiting capabilities with productive tools, methods and recruiters.
- **Price Competitive:** The Company is very price competitive, we keep our costs low by aggressively pricing customer requirements that meet their budgets. We offer benefits that lead to successful recruiting and retention, so we can offer our customers performance stability and consistency.
- **Committed Management:** Our leadership and managers understand customer service requirements and provide outstanding responsiveness and compliant, high quality services.

PAST PERFORMANCE EXAMPLES

- **Mission Training Complex Capabilities Support II (MTCCS):** provide Mission Command, simulation, and virtual training and exercise support; network operations; database management; and systems administration at the Mission Training Centers.
- **TRADOC G-2 Operational Environment (OE) and Core Functions:** provide IT services including systems engineering and systems administration.
- **TSA Specialized Security Training :** provide training and training support services to TSA's workforce, including curriculum development and train-the-trainer support.
- **Academic Instructor and Tutor Services:** provide curriculum development and platform instruction to the Future Sailor Preparatory Course for the US Navy.
- **FEMA National Fire Academy Program Support:** provide comprehensive logistical, administrative, editorial, technical and training support.
- **USAREC Guidance Counselor Administrative Support:** provide administrative support services at 41 MEPS locations in support of the Army recruiting mission.
- **National Oceanic & Atmospheric Administration IDIQ:** provide technical, administrative and non-scientific support services to NOAA's West Coast Region, National Marine Fisheries Service.
